Lighthouse output: 600 Lumens
Dimensions: 33mm x 30mm
Weight: 32g

Pack Quantity Piece
Price : £23.99 inc VAT

Overview

The PWR Lighthouse 600L is part of Knog's PWR Range. Compatible with the small, medium and large PWR Banks you can build the bike light that you want.

BROAD AND BRIGHT COVERAGE - The PWR Lighthouse 600L outputs an elliptical style beam for broader and brighter road coverage. This modular 600 lumen lighthouse can be swapped between small, medium and large PWR Bank batteries for longer runtimes.

PROGRAM YOUR LIGHT - When Knog designs each light, we put optics at the heart of that equation. Whether it's new LED formations, or beam patterns, we are committed to making each lumen work harder once you're on the road. You can program the light to suit your needs with Modemaker ÓÇô control brightness, adjust runtimes and add new light modes.

SPECIFICATION

- Dimensions - H: 44mm x W: 31mm x L:31mm.
- Weight - 34 grams.
- Lumens - 600.

Runtimes if lighthouse is paired with PWR Bank Small.

Max	600	2.3 hrs
Mid	250	6.1 hrs
Stamina	65	23 hrs
Pulse	600	8 hrs
Strobe	250	35 hrs

INSTRUCTIONS

- **Operation:** PWR Lightheads have no buttons! Instead we use rotation to switch the light on & between modes.
- **To turn light On / Off:** Rotate the lighthouse until it stops and hold in place for 1 second or until the light turns on / off.
- **To change the modes:** Once the light is on, you can simply change the mode by rotating the light head until it stops. It will spring back into position.
