YCF18S55TLGRSDFX0000000

Discipline: Enduro / Trail  
Material: Carbon Fibre  
Weight: 5.67lbs

Pack Quantity Piece  
Price : £3059.10 inc VAT

### Overview

Big wheels are fast. And with the latest technological advances in other components, they're also tons of fun to ride. When Yeti's racers and testing team first threw a leg over this rig, every rider remarked that they had never ridden so fast. KOMs and PRs were set left and right. With a golden boy of tail whips and manual Mondays, Cody Kelley chose it as his every day weapon of choice for EWS racing - proving it was every bit as nimble as it was fast. It's also a staff favourite.

The SB5.5 TURQ Series is designed to be burly, responsive, and lively. Built to be strong enough to handle team rider Richie Rude's speed and brute force, but agile enough to accommodate Cody Kelly's unmistakable style, the SB5.5 TURQ series is redefining 29ers as we know them.

### FEATURES
