DEMODE18YCSB6L

RRP: £7099
Discipline: Enduro
Material: Carbon Fibre
Size: Large

Pack Quantity Piece
Price : £4999.00 inc VAT

Overview

With this year's demo season coming to an end, it is now time to set our fleet free into the wild. This 6c has been treated well, with little more than a small chip on the down tube, a little heel rub to the chainstay and a scuff on the fork decals to show it's time in action. After a complete strip down, service and reassembly by our seasoned technicians this high spec 6c is ready to let rip.

The SB6 is built to excel on the toughest enduro tracks in the world and earned the 2015 EWS World Championship title under Yeti factory rider Richie Rude. Although it screams gravity, this bike is light, pedals well, and is tons of fun on the lifts or grinding out big days in the backcountry.
