Overview

The award winning Foxy Alloy was the bike that made the biking world sit up and take notice of the benefits Forward Geometry brings to the trail. Thanks to the Foxy MTB design will never be the same again. The Foxy is Mondraker's benchmark trail bike and arguably the most 'complete Mountain Bike' in a line-up of high-performance, world beating and World Championship winning machines.

2019 sees a full overhaul for the Foxy alloy, mirroring the latest Foxy Carbon. Boasting 150mm travel via Zero Suspension kinematics and a trunnion mounted metric shock, paired with Stealth EVO Alloy tubing. Available in either 27.5" or 29" wheel size, both frames feature a new alloy monoblock upper link, an integrated fender to protect the rear shock and oversized bearings and pivot axles ensuring further strength and durability.

The 2019 Foxy 29" features Rockshox suspension, Shimano brakes and a SRAM 12 speed drivetrain.
