Overview

Mondraker's children's bikes offer the perfect entry into the world of real mountain biking. All bikes share the DNA, attention to detail and trickle down technology from the world's most innovative mountain bike company. Components are chosen to give young mountain bikers the best of current technology tailored to suit smaller riders needs. There is no better way to for new riders to start their mountain bike journey with a range of bikes thoughtfully put together to give a safe and inspiring launch point.

Kids shouldn't have toys masquerading as bikes. They should have good quality, functioning trail-shredders that are made to fit. That's what adults expect so why shouldn't kids get the best possible start to mountain biking?

Brand new for 2019 the Leader 20" features a Custolite Alloy frame complete with Shimano 6 speed drivetrain and a Mondraker kids component kit which includes: Stem, Handlebar and Saddle.
