Pack Quantity Piece
Price : £179.99 inc VAT

Overview

Di2 internal cable routing compatible.

We took our lightest, most comfort-advanced bar - the EC90SLX - and used our second-tier carbon fibre for a more affordable package. The EC70 SL features the same top of the line MCD shape technology for easy position transferring; Taperwall™ to maintain stiffness while reducing weight; and Intelligent Flexibility for added vibration dampening comfort. It also features recesses for cables and comes in four lengths. The EC70 SL is the full race package deal.
