Overview

- Removable D30™ High Performance shock absorbing protective foam at shoulders and spine
- Custom Heat-Moulded foam chest plate
- Compatible with leading neck braces without compromising fit and protection
- Strategic fabric mapping. Highly durable dense mesh throughout the core ensures second skin super fit to keep targeted protection in its place and allows for maximum venting
- Lycra stretch panels are integrated with flatlock seam finish to ensure mobility and comfort through the athlete's full range of motion.
- Sizing is built for snug fit
