### Overview

The Hayden jersey is made for those frequent instances we're charging up Apex on a hot summer day. When our home trail can feel like an easy-bake oven, we rest easy knowing DriRelease cuffs and underarms ensure sweat is wicked away promptly. The addition of Polygiene anti-stink technology allows us to hang the jersey up in our lockers for multiple rides without washing. Yup, we're serious. We tested it and it works. The stash pocket is perfect for a small too, snack and/or your phone also making this jersey great for those Betis who like to run too.
