Overview

Our apparel line wouldn't be complete without a longer DH/park offering and the Jasper is built for exactly that. The longer length works well for the rider looking for a little extra coverage, and silicone grip tape in the waistband, and the tech webbing waist adjustment offer the perfect fit that stays dialed all day. Less moto-inspired and far more versatile than other shorts of this durability, the Jasper offers the casual Yeti style paired with a high-performance construction to crush any ride.

FEATURES

- Low profile tech webbing waist adjustment to dial in the perfect fit.
- Silicone grip tape in waistband.
- Zippered vents / Highly durable, ultra-lightweight nylon fabric.
- Breathable stretch panels in back and on thighs.
- Zippered back pocket.
- 15" inseam.
