Genuine OE parts

Pack Quantity Piece inc VAT

Overview

Easton Tubeless Kits are designed to work with our tubeless ready road rims and wheels, allowing you to enjoy the full benefits of a tubeless setup: less flats and a reduction in weight. Each kit comes with two removable core valves with removal tools, and enough tubeless tape for two wheels. Easton tubeless valves have been designed for optimal seal with the shape of Easton rims and a have removable valve core for easy sealant application.

- 10m x 22mm
- 2 x valves
