

Peaty's Bicycle Assembly Grease

-PT-PGR-GEN-100

Readily Biodegradable
Long-lasting lubrication under extreme loads
M15 threaded cap

Pack Quantity Piece
Price : £0.00 inc VAT

Overview

Peaty's assembly grease uses the latest generation of base oils and additives to provide long-lasting, low friction performance under extreme pressures.

Meeting the ultimate biodegradability OECD test 301B, the assembly grease has a high resistance to water washout, excellent anti-corrosion properties and Adhesion to metallic parts, while remaining compatible with most other conventional greases.

Features

- Keeps your bike running quieter & smoother for longer.
- Long-lasting lubrication under extreme loads.
- Anti-corrosion protection high resistance to water washout.
- Readily Biodegradable.
- 100% PCR & PIR Recycled Packaging.
- M15 threaded cap.
